## DETAILED ACTION

### *Response to Amendment*

1. Receipt of Applicant's Amendment, filed 07 October 2005, is acknowledged.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 1, recites "... wherein any modifications of the other data structures in the second intermediate form are independent of the custom data type element" which is **not supported in the Specification** as filed.

Claims 2-20 are rejected for fully incorporating the deficiencies of their respective base claims by dependency.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "*the other data structures*" in line 13. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites "... *the other data structures*." The claim is unclear that the one ordinarily skilled in the art cannot recognize the encompassed claimed limitation.

Claims 2-20 are rejected for fully incorporating the deficiencies of their respective base claims by dependency.
